Sommario/riassunto

As a number of Western economies begin to emerge from the shadows
 of recession, the level of merger and acquisition activity has picked up
 dramatically. Although CEOs predict synergies in mapping out a merger
 or acquisition, the reality is far from the rhetoric. The Advances in
 Mergers and Acquisitions series is in its 14th year, and research in this
 field continues to grow, and help highlight the inhibitors and enhancers
 for successful M & As. These ten chapters explore sequential aspects of
 the M & A process, from the pre-combination phase, to issues that
 should be taken into account when
