Sommario/riassunto	In recent years, there has been a notable increase in philosophical interest in perception. Perception is the basic and primary way in which we get in touch with our world in cognitive and active terms: by perceiving the surrounding world, we come to form true beliefs about it and successfully inhabit it through our actions. As such, correctly understanding the nature of perception will help to shed light on many other central philosophical issues. This book offers a defence of the content view of perceptual experience, of the idea that our perceptual experiences represent the world as being a
