Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	From Buenos Aires to Athens -- Getting lucky -- The euro: hard sell, or mis-sell? -- Western branding, eastern legacy: a country on a fault line -- The looting of Greece: scandals, corruption and a monstrous public sector -- Getting unlucky : it all begins to unravel -- The euro in practice -- Liquidity boom -- The entertainers -- An unaffordable bail-out? A crisis made worse by satisficing -- The man in the arena.
Sommario/riassunto	Jason Manolopoulos lends a unique perspective, based on experience of the global financial system, emerging markets and crises, European politics and Greek society, to demonstrate how one of the EU's smaller countries played a catalytic role in a crisis that threatens the future of the euro, and possibly even of the European Union itself. He digs beneath the headline economic data to explore the historical legacy and psychological biases that have shaped an on-going political drama, in a book that has profound implications for our understanding of economics, as well as the policy choices
