Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references.
Sommario/riassunto	Informal care provided by family members is central to current health and social care policy. Caregiving can be seen as a point where macro- and micro-level processes meet: it simultaneously concerns the organization of welfare states and the everyday lives of the millions of people giving and receiving informal care. This makes it important to understand how the carer role is conceptualized and performed by those occupying it. Care and Culture contributes to the sociology of caregiving by giving voice to mental health carers from a great variety of backgrounds and by placing personal experienc
