Sommario/riassunto

The EMHJ was launched in 1995 as a peer-reviewed medical journal.
 Starting January 2010 the Journal has been given a new format and is
 now published monthly. The EMHJ serves as a forum for the
 dissemination of biomedical information through the publication of
 scientific research papers on a range of topics related to public health
 with particular relevance to the Eastern Mediterranean Region. In
 this month's issue: Editorial: Prevention of type 2 diabetes - where is
 the evidence? Editorial: Continuing progress in the priority health areas:
 actions for Member States and WHO; Confidential
