Sommario/riassunto	The contributions presented in this volume are the result of research

activities and interdisciplinary encounters organised by the Nordic Network of Law and Literature. They focus on current discussions on justice in a Nordic and European context. By expanding the focus to justice and humanities - beyond "law and literature" - the authors intend to not only cover law and literature in a traditional (narrow) sense, but to embrace different perspectives closely linked to the research and debate about law and literature, e.g., in cultural studies. The volume specifically deals with four main themes, each of which is described and analysed from different angles, by a scholar with a background in the humanities and a scholar with a legal background (or lawyer), respectively: Law and Humanities - the Road Ahead; History, Memory and Human Rights; Forgiveness and Law; Justice, Culture and Copyright.
