

1. Record Nr.	UNINA9910461175303321
Autore	Tangie Kenneth Ndifor
Titolo	Improving learning in secondary schools : conditions for successful provision and uptake of classroom assessment feedback / / Kenneth Ndifor Tangie
Pubbl/distr/stampa	Newcastle upon Tyne, England : , : Cambridge Scholars Publishing, , 2015 ©2015
ISBN	1-4438-8244-5
Descrizione fisica	1 online resource (329 p.)
Disciplina	371.272
Soggetti	Grading and marking (Students) Students - Self-rating of Learning, Psychology of Electronic books.
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references.
Sommario/riassunto	Improving Learning in Secondary Schools brings together, in a succinct, comprehensive and thought-provoking manner, several dimensions of classroom assessment feedback in one volume. It is based on the principle that students need feedback on their work and conduct at school in order to be able to correct misconceptions and omissions that can render them incapable of making progress and learning in a given subject. The book reports on a doctoral study that examined teachers' feedback practice and its relation to student learning in secondary schools. It presents a critical, fine-grained classi

2. Record Nr.	UNINA9910300070203321
Autore	Saliou Guillaume
Titolo	Practical guide to neurovascular emergencies / / Guillaume Saliou [and three others]
Pubbl/distr/stampa	Paris : , : Springer, , 2014
ISBN	2-8178-0481-3
Edizione	[1st ed. 2014.]
Descrizione fisica	1 online resource (xvii, 192 pages) : illustrations (some color)
Collana	Gale eBooks
Disciplina	610 616.0757 616.12 616.80425
Soggetti	Neurovascular diseases Emergency medicine Critical care medicine
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Translation from the French language edition 'Guide pratique des urgences neurovasculaires'.
Nota di bibliografia	Includes bibliographical references.
Nota di contenuto	Introduction -- Principles of Magnetic Resonance Imaging (MRI) -- Arterial stroke overview -- Territorial brain infarction -- Watershed infarction -- Transient ischemic attack -- Lacunar infarction and small arteries diseases -- Rare cerebral vasculopathy -- Hemopathy -- Cerebral hemorrhage -- Cerebral venous thrombosis -- Medullary infarction -- Imaging differential diagnosis in stroke -- Incidentalomas -- Thrombolysis.
Sommario/riassunto	Modern vascular neurology, particularly in the emergency setting, often requires a great capacity for analysis and synthesis. Physicians who manage these patients must have acquired multidisciplinary skills, including a good knowledge of clinical neurology and medical imaging, but they may also need to be skilled in cardiology and intensive care. The initial clinical and imaging examinations play a decisive role in the management strategy. This book, written by neurologists and neuroradiologists, is designed to help all physicians involved in the management of neurovascular disease. The format and contents of this book, including the latest guidelines from learned societies, are

designed to provide a succinct and practical guide. Although this book is particularly devoted to ischaemic stroke, other neurovascular diseases, especially haemorrhagic stroke, are also discussed. This book should constitute a valuable tool for everyday practice for all medical personnel involved in neurovascular disease. The French edition of this book received the 2013 Jean-François Ginestie Price, awarded by the French National Academy of Medicine.
