## Sommario/riassunto

Although the trust is generally seen as a creation of the common law tradition, modern civilian systems are increasingly interested in incorporating the trust institution. This collection of essays explores multiple civilian experiences with the trust. The reform of Quebec's trust institution attracted worldwide attention in 1994. Louisiana's 1964 Trust Code stands in an uneasy relationship with its general law of property. Israel has had a fascinating pluralist experience of multiples trusts. The People's Republic of China passed a Trust Law in 2001 and the development of the trust in this important economy is a matter of great interest and some controversy. France adopted a trust in 2007, and in Italy, trusts can be created through the choice of foreign governing law, under the Hague Trusts Convention. The concluding chapter draws conclusions from all the essays and sets out challenges for future research in the comparative law of trusts.

Sommario/riassunto	<p>Si le système sportif, qui est né en Angleterre au xixe siècle, a constitué une rupture radicale avec les pratiques athlétiques antérieures, sa diffusion aux quatre coins de la planète par l'intermédiaire de l'impérialisme anglo-saxon a fortement contribué à façonner le monde dans lequel nous vivons. Quelle est cette chose dont l'impérialisme anglo-saxon faisait tant de cas ? De quelles valeurs de « civilisation », de quels codes moraux était-elle porteuse ? Quel accueil a-t-elle reçu dans les pays qui subissaient la présence coloniale ? C'est à cet examen essentiel que nous invite le présent ouvrage pour apprécier les raisons des éventuels rejets, des réappropriations plus ou moins radicales, et plus généralement des engouements extraordinaires auxquels a donné lieu l'apparition du phénomène sportif dans des milieux culturels très différents de celui d'origine. Dans cette perspective, les apports respectifs de l'histoire événementielle et de l'anthropologie sont confrontés et discutés.</p>
