

1. Record Nr.	UNINA9910461235803321
Titolo	Groundwater quantity and quality management [[electronic resource] /] / edited by Mustafa M. Aral, Stewart W. Taylor
Pubbl/distr/stampa	Reston, VA, : American Society of Civil Engineers, c2011
ISBN	0-7844-7622-5
Descrizione fisica	1 online resource (582 p.)
Altri autori (Persone)	AralM. M (Mustafa M.) TaylorStewart Warren
Disciplina	628.1/14
Soggetti	Groundwater - Management Groundwater - Quality Electronic books.
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	"Sponsored by Groundwater Management Technical Committee of the Groundwater Council of EWRI, Environmental and Water Resources Institute (EWRI) of the American Society of Civil Engineers."
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	""Cover""; ""Table of Contents""; ""Acknowledgments""; ""Contributors""; ""1. Introduction""; ""1.1 Groundwater Management""; ""1.2 Purpose, Scope, and Organization of Book""; ""1.3 Future Trends""; ""1.4 References""; ""2. Groundwater Hydrology""; ""2.1 Hydrologic Cycle""; ""2.2 The Near Surface Environment""; ""2.3 Physics of Flow through Porous Media""; ""2.4 References""; ""3. Groundwater Quality: Fate and Transport of Contaminants""; ""3.1 Introduction""; ""3.2 Transport Processes""; ""3.3 Chemical Reactions, Retardation and Decay of Solutes"" ""3.4 Mathematical Model of Contaminant Transport""""3.5 Analytical Solutions to the Mass Transport Equation""; ""3.6 Numerical Solutions to the Mass Transport Equation""; ""3.7 Demonstration Example""; ""3.8 On the Use of Artificial Neural Networks in the Analysis of Nitrate Distribution in Groundwater""; ""3.9 References""; ""4. Review of Analytical Methods of Modeling Contaminant Fate and Transport""; ""4.1 Introduction""; ""4.2 Single Species Transport""; ""4.3 Multi- species Reactive Transport in One-Dimensional Systems""; ""4.4 Multi- species Transport in Multi-dimensional Systems"" ""4.5 Conclusions""""4.6 References""; ""5. Physical and Chemical

Characterization of Groundwater Systems"; ""5.1 Introduction"; ""5.2 Reconnaissance-Level Investigations"; ""5.3 Geophysical Investigations"; ""5.4 Test Drilling and Well Installation"; ""5.5 Water Quality Characterization"; ""5.6 Characterization Guidance and Specifications"; ""5.7 References"; ""6. Quantitative Analysis of Groundwater Systems"; ""6.1 Use of Models in Groundwater Management"; ""6.2 Constructing Site-Specific Simulation Models"; ""6.3 Optimization Methods for Groundwater Management"" ""6.4 References""""7. Model Calibration and Parameter Structure Identification in Characterization of Groundwater Systems"; ""7.1 Introduction"; ""7.2 Parameterization of Heterogeneity""; ""7.3 Parameter Structure Identification""; ""7.4 Interpolation Point Selection""; ""7.5 Model Selection""; ""7.6 Bayesian Model Averaging""; ""7.7 Experimental Design""; ""7.8 Summary and Conclusions""; ""7.9 References""; ""8. Development of Groundwater Resources""; ""8.1 Introduction""; ""8.2 Aquifer Yield and Groundwater Availability""; ""8.3 Effects of Groundwater Development"" ""8.4 Regional Scale Development of Groundwater""""8.5 Conjunctive Use of Surface Water and Groundwater""; ""8.6 Coastal Aquifer Development""; ""8.7 Development of Brackish Groundwater""; ""8.8 References""; ""9. Subsurface and Surface Water Flow Interactions""; ""9.1 Introduction""; ""9.2 Subsurface Flow in Near Stream Environments""; ""9.3 Surface-Subsurface Interactions at the Hillslope Scale""; ""9.4 Watershed Scale Groundwater and Surface Water Interactions""; ""9.5 References""; ""10. Density Dependent Flows, Saltwater Intrusion and Management""; ""10.1 Introduction"" ""10.2 Density-Dependent Governing Equations""
