Sommario/riassunto	The Political Economy of Noncompliance explains why states fail to comply with international law. Over the last sixty years, states have signed treaties, established international courts and other supranational institutions to achieve the benefits of international cooperation. Nowhere has this been more successful than in the European Union. European integration has produced one of the most intensely legalized regimes in the world. Yet, even in the European Union, noncompliance of states often occurs. This book explores the sources of and reasons for noncompliance, and asses
