Ciliated Sense / Eva Hayward -- Concluding Remarks: From Theory To Action: An Ethologist's Perspective / Jonathan Balcombe -- Index / N. Taylor and T. Signal.
Sommario/riassunto	Utilising ideas from post-modernism and post-humanism this book challenges current ways of thinking about animals and their relationships with humans. Including contributions from across the social sciences the book encourages readers to reflect upon taken for

granted ways of conceptualising human relationships with animals. It will be of interest to those in the broad field of human-animal studies as well as those within most social science and humanities disciplines including sociology, anthropology, philosophy and social theory.
