Nota di contenuto	pt. 1. Conceptual frameworks -- pt. 2. Strategies of intervention -- pt. 3. Applications : specific clinical issues -- pt. 4. What about men? -- pt. 5. Applications : wider systems.
Sommario/riassunto	The systems approach to the family is based on the assumptions that there is equality between men and women in the family, and that women and men are treated equally in clinical practice. The contributors to this book challenge these hidden assumptions, discussing the issues from both a conceptual and clinical viewpoint. They argue strongly that questions of gender and power should be central to family therapy training and practice.
