Chapter 18. Mostly practiceChapter 19. Conclusions; APPENDIX A: Characteristics of schizoid thinking; APPENDIX B: Infant research and the ""right mind""; APPENDIX C: Thefuture-winds of change; GLOSSARY; REFERENCES AND BIBLIOGRAPHY; INDEX

Sommario/riassunto

'In a series of fascinating supervisory case studies Jackson draws on Kleinian concepts and Scandinavian clinical experience to show how a psychotherapeutic approach can, through a combination of empathy and sound theory, stabilise, contain, integrate and tame the unnamable terrors and compulsions of psychosis. Jackson's courage, modesty and total integrity shine through.'- Jeremy Holmes MD, University of Exeter.
