Sommario/riassunto	From Samuel Huntington's highly controversial Who Are We? to the urgent appeal of Naomi Wolf's The End of America, Americans are increasingly reflecting on questions of democracy, multiculturalism, and national identity. Yet such debates take place largely at the level of elites, leaving out ordinary American citizens who have much to offer about the lived reality behind the phrase, 'I am an American'.

Sommario/riassunto	This volume provides essays on fundamental rights, on European and Italian contract law, and on the lawyer's role in contemporary society being the result of research carried out from a lawyer's perspective in recent years. As fundamental rights are the same principles upon which rests the entire EU law, encoded in many written national constitutions or statute laws, they pervade all legal relations, including relations governed by private law. Furthermore, they invest the contract law as well, i.e. the ancient realm of freedom, particularly freedom of contract, involving jurists of every profession: the legislator, judges, lawyers and academic professors.
