Sommario/riassunto	Ghana's government has embarked on a decentralization process since the 1980's, but devolution of the health system faces important challenges and weaknesses. Ghana has made significant progress, and several building blocks for a devolved health system have been put in place. However, important weaknesses remain regarding several of the key requirements to successful decentralization. Ghana has along the years put in place several important building blocks for a truly decentralized health system. But these efforts have been hampered, and their effectiveness diminished, by the absence of a...

Sommario/riassunto	The continuing debate over the existence or non-existence of formal verbal aspect in Gothic triggered the author to write this monograph

whose aim is to provide a completely new foundation for a theory of aspect and related features. Gothic, with its limited corpus, representing a translation of the Greek, and showing interesting parallels with Slavic verbal constructions, serves as an illustrative model for the theory. In Part I the author argues that a unified theory of aspect, actional types, and verbal velocity presented there possesses an internal logic and is not at variance with observ
