1. Record Nr. UNINA9910461380403321

Autore	Schreyer Alexander (Alexander C.)
Titolo	Architectural design with SketchUp : 3d modeling, extensions, bim, rendering, making and scripting / / Alexander C. Schreyer ; cover image, Alexander C. Schreyer
Pubbl/distr/stampa	Hoboken, New Jersey : , : Wiley, , 2016 ©2016
ISBN	1-118-97883-8 1-118-97884-6
Edizione	[Second edition.]
Descrizione fisica	1 online resource (616 p.)
Disciplina	006.6869
Soggetti	Computer graphics Three-dimensional display systems Engineering graphics Electronic books.
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Includes index.
Nota di contenuto	""Title Page""; ""Copyright""; ""Dedication""; ""Preface""; ""Acknowledgments""; ""Chapter 1: Introduction""; ""About This Book""; ""3D for All""; ""How Does SketchUp Fit into the Designer's Toolbox?""; ""Windows or Mac, Pro or Make?""; ""How This Book Works""; ""Let's Go!""; ""Chapter 2: A SketchUp Refresher""; ""Let's Get Started!""; ""Interface and Program Setup""; ""Working with Templates""; ""SketchUp's Tool Set""; ""SketchUp Best Practices""; ""Chapter 3: Component-Based 3D Modeling for Efficient and Data-Driven Designs""; ""Group- and Component-Based Modeling"" ""Using Dynamic Components to Your Advantage""""Where Does SketchUp Fit into the BIM Workflow?""; ""Chapter 4: Using Extensions Effectively""; ""What Does an Extension Do?""; ""Extensions Overview""; ""Chapter 5: Rendering in SketchUp""; ""Let's Get Visual!""; ""Overview of Rendering Methods""; ""Rendering Software""; ""Perfecting the Components of a Rendering""; ""Rendering Tips""; ""Making Renderings Presentable""; ""Chapter 6: Making Things with SketchUp""; ""What Can I Make with SketchUp?""; ""Services for Makers""; ""Selecting the

Manufacturing Technique""; ""Cutting Prep""
""Laser Cutting""""CNC Milling""; ""3D Printing""; ""For More Information About Making""; ""Chapter 7: Creating Geometry Using Ruby Scripting""; ""Why Computational Geometry?""; ""Setting Up Your Computer""; ""Intro to Ruby and the SketchUp API""; ""Creating Geometry with Ruby""; ""Transformations Change Things Up""; ""Attracted to Attractors""; ""What Else Is Possible with This?""; ""Some Pitfalls and Things to Watch Out For""; ""Appendix A: SketchUp Quick Reference Cards""; ""Appendix B: Ruby Class and Method Reference""; ""Appendix C: SketchUp API Class and Method Reference""
""Appendix D: Creating Your Own Extensions""""""Appendix E: Dynamic Component Function Reference""; ""Appendix F: Creating a Simple Custom XML Schema""; ""Index""; ""EULA""
