Collana World Bank study Altri autori (Persone) SinghAvieet SamadHussain A. <1963-> Disciplina 333.79/4095496 Soggetti Rural electrification - Nepal Renewable energy sources - Nepal Rural development - Nepal Electronic books. Lingua di pubblicazione Inglese **Formato** Materiale a stampa Livello bibliografico Monografia "June 2010." Note generali Nota di bibliografia Includes bibliographical references. Contents; Acronyms and Abbreviations; Acknowledgments; Executive Nota di contenuto Summary; Figures; Tables; 1. A Long Road to Expanding Rural Access; 2. Objectives and Methodology of a Monitoring Framework Design for Renewable Energy; 3. Coverage and Attributes of Micro-Hydro for Households and Enterprises; 4. Benefits of Electrification to Rural Households: Boxes: 5. Implementation of the Management Information System (MIS); 6. Action Plan and Way Forward for AEPC; References; **Annexes** This report is an output of the technical assistance activity carried out Sommario/riassunto over 2008-2010 to Alternative Energy Promotion Center (AEPC), which is the nodal renewable energy agency of Nepal. This study has been designed to establish a monitoring system for AEPC to continually measure the results of the renewable energy programs against the targets and to organize an evaluation system that measures the impact of micro-hydro installations on rural livelihoods. Given AEPC's highly visible role, the need to develop a system that provides information on

a wide range of technical, operational, and fin
