Sommario/riassunto	In this cultural history of Cuba during the United States' brief but influential occupation from 1898 to 1902--a key transitional period following the Spanish-American War--Marial Iglesias Utset sheds light on the complex set of pressures that guided the formation and production of a burgeoning Cuban nationalism. Drawing on archival and published sources, Iglesias illustrates the process by which Cubans maintained and created their own culturally relevant national symbols in the face of the U.S. occupation.
