

1. Record Nr.	UNINA9910461474203321
Autore	Kobayashi Nagao
Titolo	Circular dichroism and magnetic circular dichroism spectroscopy for organic chemists [[electronic resource] /] / Nagao Kobayashi, Atsuya Muranaka, John Mack
Pubbl/distr/stampa	Cambridge [England], : RSC Pub., 2012
ISBN	1-84973-293-0
Descrizione fisica	1 online resource (217 p.)
Altri autori (Persone)	MuranakaAtsuya MackJohn
Disciplina	543.54
Soggetti	Circular dichroism Magnetic circular dichroism Electronic books.
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references and index.
Sommario/riassunto	CD and MCD spectroscopy can provide key information about the conformations and electronic states of chromophore containing molecules. However, the theory has remained too challenging and inaccessible for many organic chemists and biochemists and only a few researchers have carried out detailed quantitative analyses of their spectral data. This is not surprising as people who excel at spectroscopic theory usually lack the skills set required to design and synthesise the molecules that would be most appropriate for describing and explaining the theory of CD and MCD spectroscopy. Most of the boo
