Sommario/riassunto

It is a remarkable achievement to write a book that almost four decades after its publication has lost virtually none of its relevance. Manfred Lachs' famous treatise on the Law of Outer Space was originally published in 1972, yet it is still a classic and must-read text for space law students today, even though copies can nowadays be rarely found. The reissue of this remarkable work is therefore timely indeed. Its aim is to make the brilliance, foresight and clarity of Lachs' thinking once more easily accessible to a new generation of scholars. Issued on the occasion of the 50th anniversary of the International Institute of Space Law, of which Lachs was President, this volume reproduces the original text of Lachs' work in full, with a new preface, introduction and index supplied by the editors.

2. Record Nr.	UNINA9910824928903321
Autore	Balzac Honore de <1799-1850.>

Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di contenuto	Title; Contents; Dedication; Cousin Bette; Addendum
Sommario/riassunto	The crown jewel in a remarkable literary career, Cousin Bette is regarded by many critics to be Balzac's last great work before his death in 1850. A fine example of European realist fiction, the story recounts the attempt of a disgruntled housewife to bring about the misery and destruction of her entire extended family. Fans of Tolstoy's War and Peace will enjoy Cousin Bette.
