Sommario/riassunto	This book argues that MarkGCOs gospel was not written as late as c. 65GCo75 CE, but dates from sometime between the late 30s and early 40s CE. It challenges the use of the external evidence (such as Irenaeus and Clement of Alexandria) often used for dating Mark, relying instead on internal evidence from the gospel itself. James Crossley also questions the view that Mark 13 reflects the Jewish war, arguing that there are other plausible historical settings.Crossley argues that MarkGCOs gospel takes for granted that Jesus fully observed biblical law and that Mark could only make such an assumpti

Sommario/riassunto	This book explores the profession of independent advocacy through a history of the practice, and provides an empirical study of its emergence in London. While advocacy has long been associated with professions such as social work and mental health nursing, this book

delivers a unique perspective of advocacy through the lens of faith and culture. Using real life examples and insights from service users, advocates and spiritual care practitioners in the advocacy and chaplaincy sectors, the fascinating results offer proposals for enhanced theory, training and practice in independent advocacy. It will be of great interest for students and professionals engaged in advocacy or spiritual care.
