Sommario/riassunto	That America's natural environment has been degraded and despoiled over the past 25 years is beyond dispute. Nor has there been any shortage of reasons why-short-sighted politicians, a society built on over-consumption, and the dramatic weakening of environmental regulations. In Retaking Rationality, Richard Revesz and Michael Livermore argue convincingly that one of the least understood-and most important-causes of our failure to protect the environment has been a misguided rejection of reason. The authors show that environmentalists, labor unions, and other progressive groups have declined t
