

1. Record Nr.	UNINA9910461617803321
Autore	Ashby F. Gregory
Titolo	Statistical analysis of fMRI data [[electronic resource] /] / F. Gregory Ashby
Pubbl/distr/stampa	Cambridge, Mass., : MIT Press, c2011
ISBN	1-283-11917-X 9786613119179 0-262-29569-5
Descrizione fisica	1 online resource (349 p.)
Disciplina	616.07/548
Soggetti	Magnetic resonance imaging Brain mapping Electronic books.
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Bibliographic Level Mode of Issuance: Monograph
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	Data formats -- Modeling the bold response -- Preprocessing -- The general linear model -- The multiple comparisons problem -- Group analyses -- Coherence analysis -- Granger causality -- Principal components analysis -- Independent component analysis -- Other methods.
Sommario/riassunto	An overview of statistical methods for analyzing data from fMRI experiments.
