Sommario/riassunto	Action Analysis is one of the fundamental principles of animation that underpins all types of animation: 2d, 3d, computer animation, stop motion, etc. This is a fundamental skill that all animators need to create polished, believable animation. An example of Action Analysis would be Shrek's swagger in the film, Shrek. The animators clearly understood (through action analysis) the type of walk achieved by a large and heavy individual (the real) and then applied their observations to the animated character of an ogre (the fantastic). It is action analysis that enabled the animation team to visual

Sommario/riassunto	In Consumers and Citizens, Nestor Garcia Canclini, the best-known and most innovative cultural studies scholar in Latin America, maps the critical effects of urban sprawl and global media and commodity markets on citizens-and shows at the same time that the complex results mean not only a shrinkage of certain traditional rights (particularly those of the welfare or client state) but also new openings for expanding citizenship. Garcia Canclini focuses on the diverse ways in which democratic societies recognize markets of citizen opinions,

however heterogeneous and dissonant,
