## Sommario/riassunto

In humanity's struggle to find timely solutions to environmental problems, it is easily forgotten that access to our shared spaces has never been equal. This collection deals with the landscapes and places of rural, urban, and wilderness areas in relation development. Contributions examine the complex relationship that human beings maintain with their rural and urban environments and with other species in various places and spaces. Nothing is taken for granted: colonial history, globalization, localization, hybrid relationships, colonial or "shared" architecture, religious backgrounds, and claim
