Sommario/riassunto	Providing a wide range of case studies in sustainable tourism planning, this authoritative work presents cases at both international and national levels as well as on a regional, sub-regional, urban, local and site scale. Drawing on the author's world-wide experience and with contributions from professionals in the field, this book takes a comparative approach relating to different economic, political and temporal dimensions, examining established initiatives both in the context of the standards of the time and from a modern perspective looking back. With an emphasis on sustainability, this un
