

1. Record Nr.	UNINA9910461898203321
Titolo	Routledge handbook of world-systems analysis // edited by Salvatore J. Babones and Christopher Chase-Dunn
Pubbl/distr/stampa	Abingdon, Oxon ; ; New York, N.Y. : , : Routledge, , 2012
ISBN	1-280-68231-0 9786613659255 0-203-86342-9 1-135-17915-8
Descrizione fisica	1 online resource (561 p.)
Collana	Routledge international handbooks
Altri autori (Persone)	BabonesSalvatore J Chase-DunnChristopher K
Disciplina	300.1/1
Soggetti	Social systems Economics Social sciences System theory System analysis Electronic books.
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	pt. 1. Origins -- pt. 2. Theory and critiques -- pt. 3. The contemporary world-economy -- pt. 4. Development and underdevelopment -- pt. 5. Sustainability -- pt. 6. Society.
Sommario/riassunto	World-systems analysis has developed rapidly over the past thirty years. Today's students and junior scholars come to world-systems analysis as a well-established approach spanning all of the social sciences. The best world-systems scholarship, however, is spread across multiple methodologies and more than half a dozen academic disciplines. Aiming to crystallize forty years of progress and lay the groundwork for the continued development of the field, the Handbook of World-Systems Analysis is a comprehensive review of the state of the field of world-systems analysis since its origi

Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	Cover; Contents; List of Figures; List of Tables; Editors' Biographies; List of Contributors; 1 Introduction; 2 Estimating the Small Area Effects of Austerity Measures in the UK; 3 Microsimulation Estimates of the Inequality Impact of the Economic Crisis in Ireland; 4 Simulating the Need for Health- and Elderly Care in Sweden - A Model Description of SESIM-LEV; 5 An Australian Disease and Long-term Care Microsimulation Model; 6 Projection of the Supply of Nurses in France: A Microsimulation Model; 7 Gender Aspects of the Norwegian Pension System 8 The Redistributive Features of the Italian Pension System: The Importance of Being Neutral 9 Simulating Policy Alternatives for Public Pensions in Japan; 10 On the Construction of Early Warning Indicators of Old-Age Poverty; 11 How Sensitive is Old-Age Poverty to Financial Crisis? A Microsimulation Experiment for Sweden; 12 Going Regional: The Effectiveness of Different Tax-benefit Policies; 13 Combining

EUROMOD and LIAM Tools; 14 An Overview of Binary Alignment Methods in Microsimulation; 15 Simulating the Expenditures of Scottish Households
16 Using Excel as a Front End to a Microsimulation Model on Energy and Water Concession Pricing
17 Modelling Sequences of Events with Chain Graph Models; 18 Education in the Norwegian Microsimulation Model MOSART; 19 What are the Driving Forces behind Trends in Inequality among Pensioners?; 20 An Investigation of the Sensitivity of a Dynamic Microsimulation Model; Index

Sommario/riassunto

Edited by leading experts in the field, this book illustrates recent advances, methodologies and uses of socioeconomic microsimulation in social sciences around the world. It does so by analysing new grounds covered in microsimulation and exploring new applications in traditional fields. As such, the chapters -grouped into five sections: new methods and methodology; pensions; financial crisis and austerity measures; health; and poverty- present recent, innovative and challenging work in various fields that is not just relevant for those in that field, but that might also inspire scholars from
