

1. Record Nr.	UNINA9910461903403321
Autore	Jarnicki Marek
Titolo	Invariant distances and metrics in complex analysis [[electronic resource] /] / by Marek Jarnicki, Peter Pflug
Pubbl/distr/stampa	Berlin ; ; New York, : Walter de Gruyter, 1993
ISBN	3-11-087031-2
Edizione	[Reprint 2011]
Descrizione fisica	1 online resource (420 p.)
Collana	De Gruyter Expositions in Mathematics ; ; 9
Altri autori (Persone)	PflugPeter <1943->
Disciplina	514/.32
Soggetti	Metric spaces Pseudodistances Invariants Functions of complex variables Electronic books.
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references (p. [387]-399) and index.
Nota di contenuto	Front matter -- I Hyperbolic geometry of the unit disc -- II The Carathéodory pseudodistance and the Carathéodory-Reiffen pseudometric -- III The Kobayashi pseudodistance and the Kobayashi-Royden pseudometric -- IV Contractible systems -- V Contractible functions and metrics for the annulus -- VI The Bergman metric -- VII Hyperbolicity and completeness -- VIII Complex geodesics. Lempert's theorem -- IX Product-property -- X Comparison on strongly pseudoconvex domains -- Miscellanea -- Appendix -- References -- List of symbols -- Index
Sommario/riassunto	Invariant Distances and Metrics in Complex Analysis
