Sommario/riassunto

How are indigenous and local people faring in their dealings with mining and related industries in the first part of the 21st century? The unifying experience in all the resource-rich states covered in the book is the social and economic disadvantage experienced by indigenous peoples and local communities, paradoxically surrounded by wealth-producing projects. Another critical commonality is the role of law. Where the imposition of statutory regulation is likely to result in conflict with local people, some large modern corporations have shown a preference for alternatives to rep
