	Sommario/riassunto	Societal transformations have recently stimulated political debates and policies on the integration of migrants and minorities in most Western European countries. While transnational migration studies have documented migrants' cross-border activities there have been few empirically grounded efforts to theorise these developments in the framework of integration and status theory.Based on a case study of Ghanaian migrants, this book seeks to understand integration processes and develops a theorem of the status paradox of migration which explores the interaction between migrants' integr
