Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	pt. 1. People -- pt. 2. Environment -- pt. 3. Economy.
Sommario/riassunto	The book explores reasons for difficulties in making cycling mainstream in many cultures, despite it being one of the most sustainable forms of transport. With contributions from the developed and developing world, the lessons learned here are placed in a socio-political context with a call for required action to create a revolution in cycle use.
