Sommario/riassunto	As the links between health and food additives come under increasing scrutiny, there is a growing demand for food containing natural rather than synthetic additives and ingredients. Natural food additives, ingredients and flavourings reviews the legislative issues relating to natural food additives and ingredients, the range of natural food additives and ingredients, and their applications in different product sectors.After an exploration of what the term 'natural' means in the context of food ingredients, part one focuses on natural food colourings, low-calorie sweeteners and flavour
