What the New Experimentation Portends for Democracy; Chapter 04. NNITs and the Obama Phenomenon; Chapter 05. Obama Tweeting and Tweeted; Chapter 06. Conclusion; References; Index; About the Author
Sommario/riassunto	Jongwoo Han's Networked Information Technologies, Elections, and Politics: Korea and the United States is a study on the changes that have been occurring in elections, politics, and democratic movements over the past decade. These changes show a paradigm shift in political

discourse, from the industrial age mass media-based public sphere to
new networked information technologies (NNITs)-based cyber sphere.
Han reveals
