Aspects of imitation and intertextuality in the correspondence of learned women in early modern times / Elisabet Göransson.

Sommario/riassunto

Since 1971, the International Congress for Neo-Latin Studies has been organised every three years in various cities in Europe and North America. In August 2009, Uppsala in Sweden was the venue of the fourteenth Neo-Latin conference, held by the International Association for Neo-Latin Studies. The proceedings of the Uppsala conference have been collected in this volume under the motto "Litteras et artes nobis traditas excolere – Reception and Innovation". Ninety-nine individual and five plenary papers spanning the period from the Renaissance to the present offer a variety of themes covering a range of genres such as history, literature, philology, art history, and religion. The contributions will be of relevance not only for scholarly readers, but also for an interested non-professional audience.
