Nota di contenuto	Introduction -- The India-Pakistan conflict: social constructivism versus neo-realism neo-liberalism -- The social constructivist security dilemma and the security community: the popular and elites' social practices -- The identities of India and Pakistan in the formative phase of state building: ideology as a key identity signifier -- The Kashmir dispute: the quest of India and Pakistan identities and Kashmiriyat, the estranged Kashmir identity -- India-Pakistan nuclear rivalry: the influence of ideology upon elites' social practices -- Exploration of norms for a hypothetical security community between India and Pakistan -- Conclusion.
Sommario/riassunto	The security relationship between India and Pakistan is generally viewed through a neo-realist approach of International Relations.. Treading on a different path, this book explains the rivalry of these countries by looking at the socio-cultural norms found at two levels, elites versus popular. Furthermore, it also conceptualizes a hypothetical India-Pakistan security community that could result in peace in the

region. The book describes how the rivalry between India and Pakistan is mostly centred on the elites of the two countries. It highlights the presence of a unique normative str
