| Sommario/riassunto | Efforts to preserve, display and promote Breton cultural differences in the late nineteenth and early twentieth centuries marked a significant advance in heritage tourism, and a departure from what is commonly |

perceived to be a French intolerance of cultural diversity within its borders. This book explores the means by which key actors - middle class associations, businesses, governmental bodies, cultural intermediaries - pursued tourist development in the region and the effect this had on Breton cultural identification. Beyond those interested in the history of French tourism, this study will
