Sommario/riassunto	The Baltic states share similar histories and resources, and face the same geopolitical challenges. All are dependent on Russia for energy yet, as this fascinating study reveals, they have pursued very different foreign policies towards their powerful neighbour. In "The Politics of Energy and Memory between the Baltic States and Russia" Agnia Grigas provides an unprecedented analysis of contemporary Baltic-Russian relations and identifies the causal factors that drive the foreign policies

of the Baltic states in such divergent routes. Supported by case studies
on the oil and gas sectors as well
