In this collection of his major studies in the field, Ludo Rocher presents essays on a wide range of topics, from general themes such as the nature of Hindu law to technical matters including word studies and text criticism. Rocher's deep engagement with the language and worldview of the authors in the Dharmasastra tradition yields distinctive and corrective contributions to the field. This collection serves as an invaluable introduction to a leading authority in the field of Indology.

Sommario/riassunto	In June 2006, Ministers of Education and representatives of National AIDS Authorities met in Port-of-Spain, Trinidad and Tobago, under the auspices of the CARICOM Council on Human and Social Development, and agreed to promote education sector leadership in addressing HIV and AIDS and to create a supportive policy and financial environment at national and regional levels. This report describes the development of these regional processes and how they have led to a stronger education sector response at the regional level. It also focuses on developments in three countries (Guyana, Jamaica, and St. Lucia) as examples of how

this regional effort translates into action at the national level.
