Crossing boundaries: harnessing funds of knowledge in dialogic inquiry across formaland informal learning environments:

Sommario/riassunto	As our understanding of learning focuses on the whole person rather than individual aspects of learning, so the process of learning is beginning to be studied from a wide variety of perspectives and disciplines. This handbook presents a comprehensive overview of the contemporary research into learning: it brings together a diverse range of specialities with chapters written by leading scholars throughout the world from a wide variety of different approaches. The International Handbook of Learning captures the complexities of the learning process in seven major parts. Its 54 chapters are sub
