Sommario/riassunto	Rising energy prices and concerns about climate change are driving us

towards a new kind of economy - a low-carbon economy. What will this low-carbon economy be like, and what does your business have to do to prosper in this new business environment? In *The Business Leader's Guide to the Low-carbon Economy*, Larry Reynolds shows how successful organisations are already learning to be more energy efficient, manage their carbon footprint, adapt to climate change and become truly sustainable. As well as explaining how to future-proof your organisation against possible threats, his book tells you h
