Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Companion to: Introduction to health and safety in construction / Phil Hughes, Ed Ferrett. 4th ed. 2011.
Nota di contenuto	Front Cover; Health and Safety inConstruction Revision Guide; Copyright Page; Contents; Preface; List of Principal Abbreviations; Unit NGC1 Management of Health and Safety; 1.1 Foundations in Health and Safety; 1.2 Health and Safety Management Systems- Policy; 1.3 Health and Safety Management Systems- Organising; 1.4 Health and Safety Management Systems- Planning; 1.5 Health and Safety Management Systems- Measuring, Auditand Review; Unit NCC2 Managing and Controlling Hazards in Construction Activities 75; 2.1 Construction Law and Management; 2.2 Construction Site -Hazards and Risk Control 2.3 Vehicle and Plant Movement - Hazards and Risk Control2.4 Musculoskeletal Hazards and Risk Control; 2.5 Work Equipment Hazards and Risk Control; 2.6 Electrical Safety; 2.7 Fire Safety; 2.8 Chemical and Biological Health Hazards and Risk Control; 2.9 Physical and Psychological Health Hazards and Risk Control; 2.10 Working at Height- Hazards and Risk Control; 2.11 Excavation Work and Confined Spaces - Hazards and Risk Control; 2.12 Demolition and Deconstruction - Hazards and Risk Control; Specimen Answers to

Sommario/riassunto

"This guide has been designed to be used together with the NEBOSH National General Certificate syllabus and the textbook Introduction to Health and Safety in Construction by Hughes and Ferrett. The guide gives only a basic summary of the NEBOSH National Certificate in Construction Health and Safety course and a full explanation of all the topics is given in the text book. The Revision Guide has the following features; It follows the latest NEBOSH National Certificate in Construction Health and Safety syllabus; Revision notes for each of the elements of the two units NGC1 Management of health and safety and NCC1 Managing and controlling hazards in construction activities; A summary of the learning outcomes and key points is given for each element; There is a final section to advise on the preparation for the examinations and some specimen answers to both long and short answer questions taken from recent NEBOSH examination papers. The Revision Guide will also be useful to those who have specific health and safety responsibilities in their jobs, such as Construction Site Managers and those who are studying on other courses related building and construction that include important health and safety elements, for example HNC, HND and degree courses in Building, Architecture, Construction, Building Services and Energy. The compact size of the Revision Guide ensures that they can be easily carried and used for revision at any time or place. They should be used throughout the NEBOSH course alongside the textbook and course hand-outs"--
