Exploring the shifting nature of care and caring practices in sibling relationships; 14 Care arrangements of transnational migrant elders: between family, community and the state; 15 Caring after death: issues of embodiment and relationality; References; Index

Sommario/riassunto

What does 'care' mean in contemporary society? How are caring relationships practised in different contexts? What resources do individuals and collectives draw upon in order to care for, care with and care about themselves and others? How do such relationships and practices relate to broader social processes? Care shapes people's everyday lives and relationships and caring relations and practices influence the economies of different societies. This interdisciplinary book takes a nuanced and context-sensitive approach to exploring caring relationships, identities and practices within
