Sommario/riassunto	This book describes how a group of young people make decisions about drug taking. It charts the decision making process of recreational drug takers and non-drug takers as they mature from adolescence into young adulthood. With a focus upon their perceptions of different drugs, it situates their decision making within the context of their everyday lives.Changing lives, changing drug journeys presents qualitative longitudinal data collected from interviewees at age 17, 22 and 28 and tracks the onset of drug journeys, their persistence, change and desistance. The drug journeys
