PREVENTING AND RESPONDING TO BULLYING AND HARASSMENT IN SCHOOLS: WHAT WE KNOW AND WHAT CAN BE DONE

Sommario/riassunto

In this volume, internationally prominent scholars address contemporary topics such as grade retention, bullying and Harassment, response-to-intervention and universal systems in relation to how students with learning and behavioral disabilities are affected by them. Additionally, the scholars describe and discuss future directions for treatments such as social skills instruction, cognitive-behavioral prevention, social emotional learning programs, and self-monitoring.
