   Sommario/riassunto The report aims to meet two broad objectives: (a) enhance knowledge about the current state of existing social safety nets (SSNs) and assess their effectiveness in responding to new and emerging challenges to the poor and vulnerable in the region by bringing together new evidence, data, and country-specific analysis; and (b) open up and

inform a debate on feasible policy options to make SSNs in the Middle East and North Africa more effective and innovative. The first chapter, 'a framework for SSN reform,' describes and illustrates the reasons for the region's growing need for SSN reform and es
