Sommario/riassunto

Globalization and the development of multinational organizations have led to an increase in the number of people spending part of their lives living and working in foreign countries. While the contemporary literature has focused on organizational expatriates sent overseas by their employers, self-initiated expatriation is becoming an important area of study in its own right. Studies on self-initiated expatriation explore the labor market positions of individuals who have relocated under their own initiative. However, no comprehensive book exists on the dynamics that underlie this type of mo
