Nota di contenuto	Preliminary Material -- Introduction -- The Operation of the Convention and the Space Assets Protocol -- The Relation of the Convention to the Law of Outer Space -- Convention on International Interests in Mobile Equipment -- Protocol to the Convention on International Interests in Mobile Equipment on Matters Specific to Space Assets -- Bibliography -- Index.
Sommario/riassunto	The UNIDROIT Convention on International Interests in Mobile Equipment created a new international regime of secured finance applicable to aircraft and rolling stock that facilitates the financing of this equipment by, among other things, enabling lenders to create a readily enforceable security interest in the equipment. The Space Assets Protocol extends the benefits of the convention to satellites and other space assets. This book explains the operation of the convention in a manner that is useful both to lawyers engaged in satellite finance as well as to academics who desire to obtain a more complete understanding of this treaty. The book also explores the relationship between the convention and the existing body of space law.

2. Record Nr.	UNINA9910132983503321

Sommario/riassunto

The Annual World Bank Conference on Development Economics (ABCDE) brings together the world's finest development thinkers to present their perspectives and ideas. In recent years, a parallel, second conference has been held in Europe with the same goal of expanding the flow of ideas between thinkers, practitioners, and policymakers in the field of international development. Annual World Bank Conference on Development Economics Europe 2005 presents selected papers from the sixth annual ABCDE - Europe meetings, held May 2004 in Brussels, Belgium. This volume contains articles on trade flows, human capital flows, capital flows and aid flows. It provides a general overview of the links between poverty and migration and insight and opinions on key development issues. The ABCDE Europe 2005 is a critical reference guide for development research and will be of interest to practitioners and those studying international development and poverty reduction.
