How to challenge liberal violence?; Notes; References; Index

Sommario/riassunto

This book maps the increasing convergence of US domestic and international security regimes, analyzing the trend towards global pacification in the name of 'security'. The dream of liberal world peace after the Cold War is on the verge of collapsing into permanent global pacification - not only in the global south but also in pockets of the 'Third World' within the territory of Western states. In this volume, the author explores the ways in which regimes of security have been extended into increasingly large aspects of social life and shows that their expansion has been driven by a co
