Altri autori (Persone)	ZylinskaJoanna <1971->
Disciplina	306
Soggetti	Technology and civilization Science and civilization Electronic books.
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references and index.
Sommario/riassunto	In Summa Technologiae, Stanislaw Lem produced an engaging and caustically logical philosophical treatise about human and nonhuman life in its past, present, and future forms. After five decades this work has lost none of its intellectual or critical significance, resonating with contemporary debates about information and new media, the life sciences, and the emerging relationship between technology and humanity.
