Sommario/riassunto

This is a book for all women writers, professional, amateur or aspiring, in which forty women talk about writing and the part it plays in their lives. Self-discovery, work, personal liberation, communication, hope for change - all these motives inspire these short and direct personal statements. The contributors come from very different backgrounds: some, like Sara Maitland, Rosemary Manning, Anna Livia, Suniti Namjoshi, are well known. Others are unpublished. In Other Words will provide practical support and encouragement for any woman who writes.
